

PROTECTING OUR SEAS

The 52 SUPER SERIES is the world's leading performance monohull circuit. In partnership with 11th Hour Racing, our goal is to integrate practices and processes that minimise the environmental impact of our extensive racing series.

We recycle everything we can, including branding & equipment.

Each year, we speak with school children about the environment.

We provide our venues with eco-friendly cleaning products.

5 FUEL REDUCTION

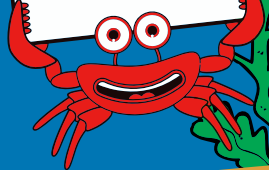

We run shuttle bus services to reduce the amount of fuel used.
